PT. POLYCHEM REWINDO PLUS
YOUR PARTNER IN CODING, MARKING, AND AUTOMATION SYSTEMS

ABOUT US

We pride ourselves on delivering the ultimate combination of cutting-edge technology, exceptional service, and expert knowledge. Established in 2016, our company has continuously grown with a strong commitment to innovation and customer satisfaction. Our team is dedicated to providing personalized support and guidance tailored to your specific needs.

We offer a wide range of top-quality inkjet coding and automation system solutions designed to optimize your production efficiency and ensure compliance with industry standards. From state-of-the-art machines to comprehensive service packages, we are committed to exceeding your expectations at every step of the way.

Trust our team to be your reliable partner in achieving seamless, high-quality coding solutions for your business.

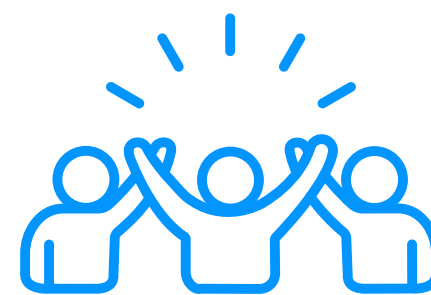

CORE VALUES

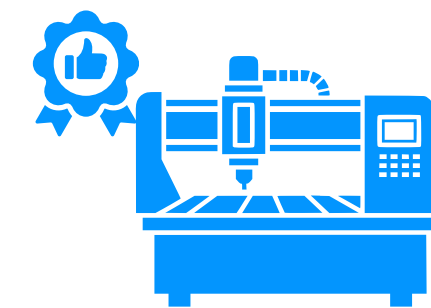

BEST SERVICES

Understanding your needs, delivering the best solutions, and ensuring increased productivity.

BEST TEAM

A highly trained and synergized team committed to delivering the best solutions.

BEST MACHINE

Top-quality machines with superior performance, reliability, and high economic value.

VISION & MISSION

VISION

The best, largest, and most trusted full-solution coding machine company in Indonesia.

MISSION

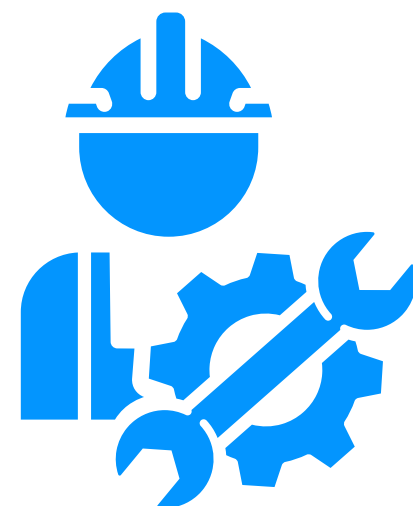

- Delivering the best service to our customers.
- Providing the highest quality machines we offer.
- Having the best team dedicated to serving our customers.
- Supplying machines equipped with the latest technology.
- Delivering the best solutions tailored to our customers' needs.

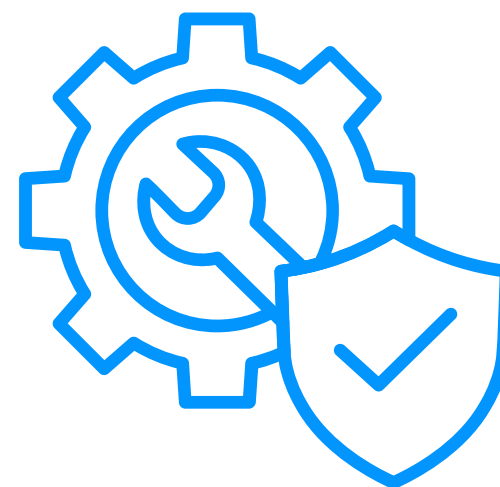

WHY WE'RE THE RIGHT CHOICE

Technical Support

Expert Technicians

Free Maintenance Service*

Ink & Spare Parts Availability

3-Year Warranty

CLIENTLE

“When clients choose our product, they choose proven quality and performance.”

OUR PRODUCT

CONTINUOUS INK JET (CIJ)

Continuous Ink Jet (CIJ) is the smart solution for high-speed coding on uneven surfaces, delivering reliable performance with low operating costs.

Built for precision and efficiency, it ensures consistent, high-quality marking across various materials—ideal for demanding production lines.

Available Models:

- LT i9 Series
- LT 800 Series
- LT 900 Series
- LT 1000 Series

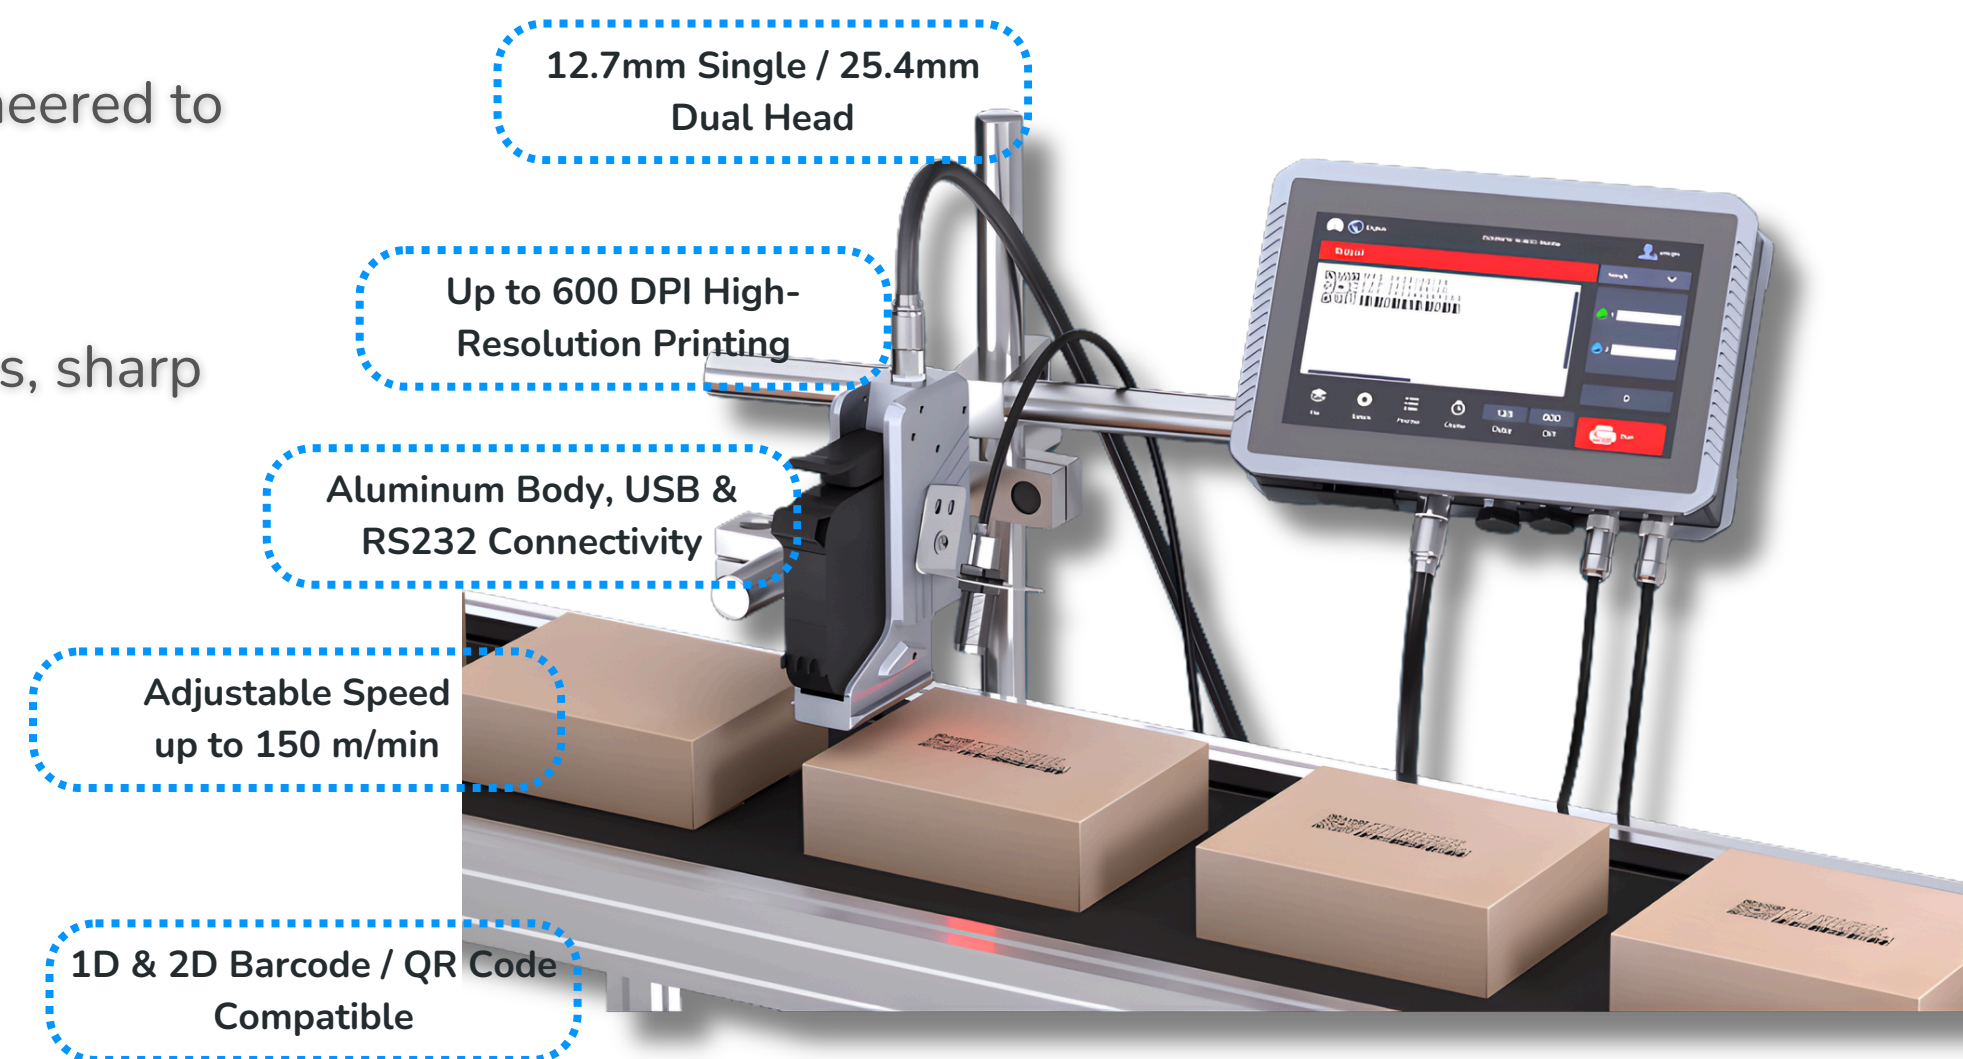

THERMAL INK JET (TIJ)

Discover our high-resolution **Thermal Inkjet (TIJ) Printer**, engineered to deliver exceptional print quality on various materials.

Designed for precision and reliability, it produces crisp QR codes, sharp barcodes, logos, text, and graphics on any surface.

Available Models:

- Bentsai B60 Series
- Bentsai Handheld Series
- TX Series
- T306 Series

TX Series

PIEZO INK JET

Engineered with advanced **Piezo Inkjet** technology, this system delivers exceptional high-resolution printing with large print sizes across a wide range of materials. Ideal for industrial coding, packaging, and product marking that demand precision, clarity, and durability on various surfaces.

P5 Pro Series

Max. 260 m/min (P7 Pro: 60 m/min)

Up to 600 DPI (vertical & horizontal)

RICOH MH5420 printhead

54 mm print height

Best for high-speed production lines

P7 Pro Series

Up to 71.8 mm (higher than P5 Pro)

Consistent 180 DPI resolution

SEIKO 510 printhead

3.3 kg (lighter than P5 Pro's 3.6 kg)

Better for bigger surface printing

DROP ON DEMAND (DOD)

Drop on Demand (DOD) Large Character Inkjet Coding System engineered to deliver high-impact marking with precision and reliability.

Capable of printing bold characters up to 50 mm in height, this advanced solution ensures maximum visibility for packaging, cartons, and industrial applications—perfect for clear product identification, batch coding, and branding needs.

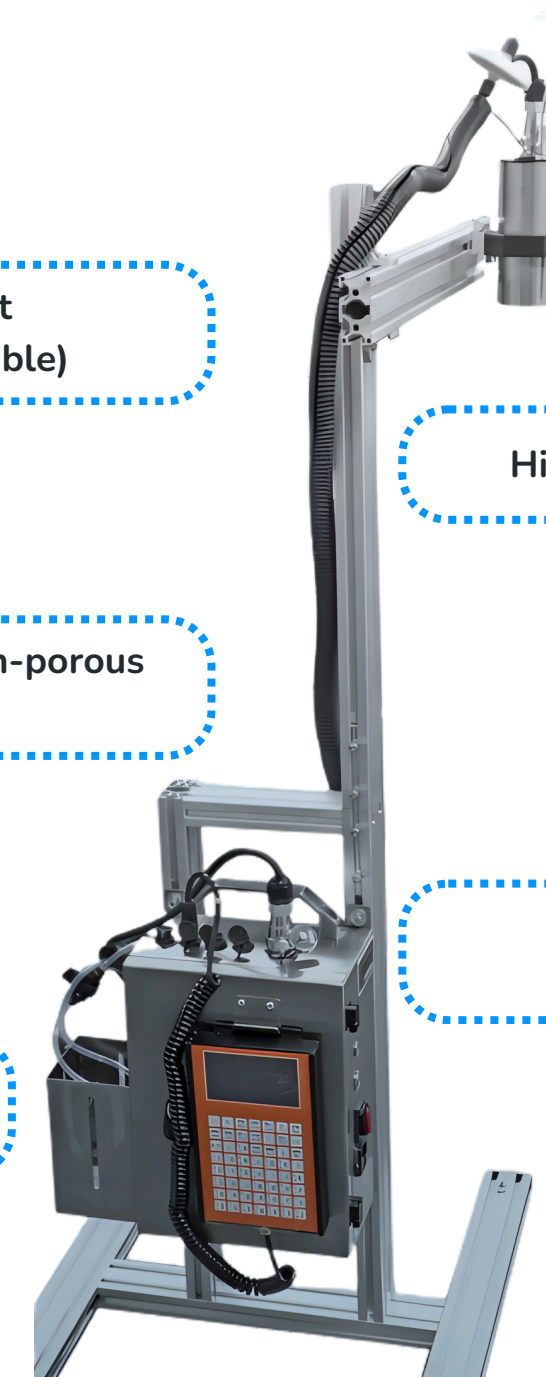

Adjustable print height
(10–60 mm options available)

High print speed up to 120 m/min

Compatible with porous & non-porous
materials

Supports multiple languages
(Chinese & English)

Durable design with stable performance for
industrial use

LT CL Series

LASER SERIES

Our cutting-edge laser systems use advanced beam focusing technology to deliver permanent, highly precise markings on various material surfaces.

Available Models:

- CO2 Laser Series
- Fiber Laser Series
- UV Laser Series

CO2 Laser

AUTOMATION SYSTEM

We seamlessly integrate coding machines with advanced automation systems to optimize production—enhancing efficiency, accuracy, and operational consistency.

Solutions Include:

- Conveyor System
- Camera System
- Track & Trace System
- Monitoring
- Database Integration

Track and Trace System

CONSUMABLE INK

Meticulously formulated consumables designed to deliver clear, durable, and compliant markings—supporting traceability, brand integrity, and regulatory standards with consistent precision and reliability.

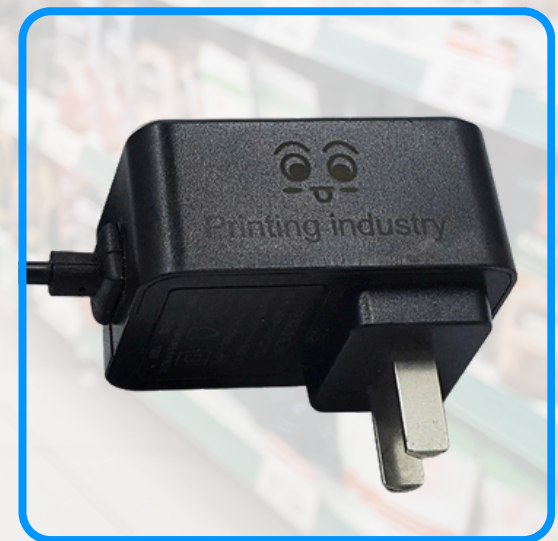

Available Products:

- Ink
- Cartridge
- Make Up
- Cleaner

Make Up
